

On-level Physics Final Exam Review and Course Remediation

Due* Date 5/19/2017 *Must be completed before you take the final exam.

This is a Final Exam review and course remediation activity. These activities will be used to help you prepare for the Final Exam and to show us your efforts to better understand material that you may have had difficulty with earlier in the course. There are multiple required parts, Physics Classroom tutorials and Schoology Test Prep activities, worth a total of 100 points (equivalent to a 20Q). Your formative grades within the appropriate standards may also be adjusted accordingly based on your performance with these tasks. It is recommended that the lower your grade is the more of these tasks you complete and even repeat after a few days to help reinforce the material. There is no limit to how much you can do, just how much effort you are willing to put forth.

Part 1: Schoology: Complete at least 10 different Practice quizzes. You must complete the quizzes from your five worst 20Q scores. The other five choices are up to you. You must score 80% or more to receive credit for each practice quiz.

When you log in at schoology.com go to your Physics course and open the Final Exam Remediation folder and get started. **DO NOT** use the ones in the 20q Practice folder. Feel free to complete each quiz multiple times even after you have scored 80%.
